

FRAGILE EARTH DRAIN DEGREASER / MAINTAINER

CONCENTRATE

Drain Degreaser / Maintainer is an innovative multi spore microbial product using naturally occurring biological nutrients, enzymes, microbes and stimulants to digest grease, fats, oils, starches, cellulose and proteins which tend to build up in pipes and drains that can lead to blockages and the creation of foul odours.

Drain Degreaser / Maintainer creates a persistent biofilm within the pipe which helps prevent future blockages and degrades any new waste. Drain Degreaser / Maintainer ensures drains are always free-flowing, odour free and hygiene levels are at a premium.

Drain Degreaser / Maintainer utilises patented eco-friendly multi-spore bacterial technology and plant enzymes which break down waste so the bacteria in the product can readily and quickly digest them as a food source, breaking them down into harmless H₂O, CO₂ and O₂. This ensures efficient and effective drain cleansing without the use of harsh chemicals. In addition to maintaining drains the bacteria also eradicate foul smelling odours that often emanate from drains.

THIS IS NOT A DRAIN UNBLOCKER: For serious blockages or overflows mechanical or chemical solutions may be required to clear the initial blockage. Fragile Earth Drain Degreaser / Maintainer can then be used to keep drains open and free flowing.

INFORMATION:

- pH 6.0 – 6.8
- Nutrient content. Biological micronutrients, enzymes, biological enhancers, surfactants and stimulants
- Off-white, free-flowing liquid
- Fragrance. Natron
- Packaging. 1L & 5L
- Stability Max. loss of 1 log/yr
- Temperature. Optimal temperature range: 3°C - 63°C
- Bacteria Count. 1 Billion CFU*/g

APPLICATION:

For Treating Drain Lines, Waste Pipes, Grease Interceptors and Grease Traps :

Use Drain Degreaser undiluted a minimum of 2 times weekly to a maximum of 4 times as follows

For Restricted flow:

To remove fats, oils and grease build up, pour 200ml of Drain Degreaser into the sink plug hole, fill with warm water and leave for 30 minutes or until the liquid has disappeared.

For Maintenance:

Pour 30ml of Degreaser into the plug sinkhole with one litre of warm water 2-4 times per week. This procedure should be undertaken last thing at night.

STORAGE & HANDLING:

DO NOT FREEZE! Store upright in original container in a cool dry location. Avoid excessive skin contact.

PRECAUTIONS:

Keep out of reach of children.

If swallowed consult a doctor and show this container or label.

CLASSIFICATION:

Non-hazardous.

CLP: Not Classified. None required.

PACKAGING: Container, lid and label recyclable.

*Colony Forming Unit
