

Septic Tank Treatment Powder 24 x 28g individual sachets

A high strength eco-friendly microbial product that digests fats, oils, grease, protein and cellulose. Septic Tank Treatment contains enzymes which actively break down waste into water soluble molecules that are readily digested by the naturally occurring bacteria included in the formulation. With a massive plate count of 1.5 billion per gram Septic Tank Treatment offers the complete solution to all common problems associated with septic tanks and cesspools by boosting the efficiency of the tank

- Reduces septic tank pumping frequency
- Extends life of drain area
- Controls methane production
- Improves drain field percolation
- Keeps sewer lines open
- Unaffected by bleach
- Prevents drain blockage
- Will not attack plastic or metal plumbing
- Safer to use than harsh chemicals
- Degrades paper, grease and vegetable waste faster.

APPLICATION GUIDE

2-3m³ Tank – initial shock dose of 2 pouches a day for 5 days, followed by 2 pouches per month.

5-10m³ Tank - initial shock dose of 4 pouches per day for 5 days, followed by 4 pouches per month.

Sachets should be introduced directly into the main tank. If access is not straightforward consider using Fragile Earth Septic Tank Treatment Liquid which can be introduced remotely through lavatory or drain with direct connection to the septic tank.

INFORMATION

Nutrient Content Biological nutrients and stimulants
