

FRAGILE EARTH PATH & PATIO CLEANER SUPER CONCENTRATE

Fragile Earth Path & Patio Cleaner is a **SUPER CONCENTRATE** which kills all green growth. The most powerful and concentrated plant derived, organic patio cleaner on the market. One 250ml bottle makes 10L of solution (500ml makes 20L) when using a spray, 500ml of concentrate will cover up to 200m² area. Fragile Earth Path and Patio Cleaner contains 100% natural active ingredients. Once treated results will show in 2-3 days.

ACTION:

The plant derived, naturally occurring biocides in our Environmentally Friendly Path and Patio Cleaner work rapidly on contact with the target material, so it's important to ensure complete coverage. The amount of product needed to effect a kill is very small, hence the large dilution rate, this is why we always recommend a fine mist spray to saturate the area. Saturating the infected area will ensure maximum contact between the target and the biocides; our biocides work quickly, typically achieving a complete kill between 15 and 30 minutes depending on temperature.

FRAGILE EARTH PATH & PATIO CLEANER FEATURES:

- 100% natural
- 100% organic
- Kills mould, algae, moss & fungi, proven to kill 99.9998% of bacteria*
- Contains **NO** acid, bleach, solvents or harsh chemicals
- Does **NOT** contain QUATs, BACs or Sodium salts
- Penetrating action
- Drain and septic tank safe
- Vegan
- DEFRA compliant
- Biodegradable
- Non-toxic pet and animal safe
- Long-lasting effect

PACK SIZE: 250ml & 500ml

DIRECTIONS:

Prior to application remove debris and loose material and any standing water. Add 250ml of concentrate to 10 litres of clean water (25ml/litre). Coverage depends on substrate. Do not apply if rain forecast within 3 hours. Results show in 2-3 days. For best results we recommend application by pump action garden spray with the nozzles set to produce a fine mist. Ideally the substrate should be dry if the substrate is saturated or very wet dosage should be increased by up to 50%.

Cont'd

Simply measure the required amount of concentrate into a sprayer and add clean water, mix briefly. Improved results are achieved by using a fine or 'mist' spray, saturate the area to be treated with the product, for difficult to treat areas apply two lighter coats one day apart, very difficult areas may benefit from the product being finished by working in with a brush. Product can be applied using watering can with a fine rose.

Do not apply if substrate surface temperatures is below -5°C

Suitable for all hard surfaces: Ideal for use on paths, patios and driveways that have been exposed to the weather all year round which can become dirty and attract moss, algae and mould that can make these surfaces very slippery, can also be used on garden statues, ornaments and terracotta pots.

Helps prevent regrowth: Penetrates outdoor surfaces creating an invisible barrier which will help to prevent re-growth for several months.

COVERAGE:

Garden Spray (mist) 1 Litre covers 8-10 square metres/litre. Watering can with fine rose 1 litre covers 3-6 square metres/litre. Coverage depends on substrate.

INFORMATION:

100% natural organic. PSLog6. Contains plant-derived algaecide and bactericides. *Certified to EU standards EN1276 for all bacteria types and EN1650 for moulds and fungi. Non-caustic, no acid, no bleach totally safe for use around children & pets. Biodegradable.

STORAGE & HANDLING:

Keep away from direct sunlight. Do not store below -5°C. Shelf life: 24 months.

PRECAUTIONS:

Keep out of the reach of children. Do not ingest. Avoid contact with eyes, in case of contact with eyes rinse with clean water for several minutes. If accidentally swallowed seek medical advice. Do not mix with other products.

CLASSIFICATION: Non-hazardous.

CLP: Not Classified. None required.

PACKAGING: Container, lid and label recyclable.
