

FRAGILE EARTH DECKING CLEANER - SUPER CONCENTRATE

Fragile Earth Decking Cleaner is a **SUPER CONCENTRATE** kills all green growth. The most powerful and concentrated plant-derived, organic decking cleaner on the market. One 500ml bottle makes 15L solution, when using a spray, this will cover up to 120m² area. Fragile Earth Path and Patio Cleaner contains 100% plant-derived active ingredients. Once treated results will show in 3-4 days.

ACTION:

The plant-derived, naturally occurring biocides in our Environmentally Friendly Path and Patio Cleaner work rapidly on contact with the target material, so it's important to ensure complete coverage. The amount of product needed to effect a kill is very small, hence the large dilution rate, this is why we always recommend a fine mist spray to saturate the area. Saturating the infected area will ensure maximum contact between the target material and the biocides; our biocides work quickly, typically achieving a complete kill between 15 and 30 minutes depending on temperature.

FRAGILE EARTH DECKING CLEANER FEATURES:

- 100% plant based
- 100% organic
- Penetrating action
- Cleans and revives decking
- Kills mould, algae, moss & fungi, proven to kill 99.9998% of bacteria*
- Contains **NO** acid, bleach, solvents or harsh chemicals
- Does **NOT** contain QUATs, BACs or Sodium salts
- Drain and septic tank safe
- Helps prevent regrowth
- Vegan
- Biodegradable
- Non-toxic plant, pet and animal safe
- Long-lasting effect

PACK SIZE: 500ml

DIRECTIONS:

Prior to application using a stiff brush, brush down the decking to remove all debris and loose material. Remove standing water.

Add 500ml of concentrate to 15 litres of clean water (or 33ml/litre). Coverage depends on substrate. Do not apply if rain forecast within 6 hours. Results show in 3-4 days.

Cont'd

Simply measure the required amount of concentrate into a pump action garden sprayer and add clean water, mix briefly. Best results are achieved by using a fine or 'mist' spray, saturate the area to be treated with the product, for difficult to treat areas apply two lighter coats one day apart, very difficult areas may benefit from the product being finished by working in with a brush.

Ideally, the substrate should be dry, which allows greater penetration into the wood surface, if the substrate is saturated or very wet (especially timber decking) dosage should be increased by up to 50%.

After 3-4 days the decking should be brushed and washed down to remove dead material prior to application of oil or finish treatment.

Suitable for all types of decking: use on timber or composite decking that has been exposed to the weather all year round which can become very dirty and attract moss, algae and mould that can make surfaces very slippery.

Helps prevent regrowth: Penetrates outdoor surfaces creating an invisible barrier which will help to prevent re-growth for up to 6 MONTHS

COVERAGE:

Garden Spray (mist) 1 Litre covers 6-8 square metres/litre. Coverage depends on substrate. Do not apply if rain forecast within 3 hours. Results show in 2-3 days.

INFORMATION:

100% natural organic. PSLog6. Contains plant-derived algaecide, fungicide and bactericides. *Certified to EU standards EN1276 for all bacteria types and EN1650 for moulds and fungi. Non-caustic, no acid, no bleach totally safe for use around children & pets. Biodegradable.

STORAGE & HANDLING:

Keep away from direct sunlight. Do not store below -5°C. Shelf life: 24 months.

PRECAUTIONS:

Keep out of the reach of children. Do not ingest. Avoid contact with eyes, in case of contact with eyes rinse with clean water for several minutes. If accidentally swallowed seek medical advice. Do not mix with other products.

CLASSIFICATION: Non-hazardous.

CLP: Not Classified. None required.

PACKAGING: Container, lid and label recyclable.
