

LIVOS for Garden furniture

Garden furniture made of solid wood

In the garden and on the terrace your furniture is exposed to wind and weather, sun and rain for many months - influences that weaken the natural resistance of the wood in the long run and change the appearance.

With the right treatment and care you can retain the original surface quality - and have many years of enjoyment with your outdoor furniture.

Do you prefer matte or glossy, rather opaque or translucent surfaces? Do you love it rather colorful or decent? **LIVOS** offers the right product for every taste and for every type of wood - from the first coat up to cleaning and maintenance.

With all, for exterior suitable oils, stains or varnishes you can obtain UV-resistant surfaces that are durable, easy to renovate and does not flake off. **LIVOS** manufactures all products from renewable resources and declares all ingredients.

On the back you get an overview about especially suitable **LIVOS** products for garden furniture and their application possibilities.

For more information, please contact your **LIVOS** dealer or **LIVOS** directly. You can also use our website at www.livos.de and our hotline +49 (0) 5825 - 88 30.
