

## Ecomerchant Coir Netting 900

100% Natural Coconut Fibre 100% Biodegradable fibre netting to ensure long term surface stability on steep problem areas, exposed sites and water courses.

Manufactured from 100% high quality bristle coir fibres, **Ecomerchant Coir Netting 700** erosion control netting is produced from spun coir twine and is available in 2.0m x 20m folded compressed rolls.

- Ecomerchant Coir Netting 900 provides a strong and durable short to mid-term protection with anticipated decomposition longevity of over 5 years. Ecomerchant Coir Netting 900 is available in larger rolls if required, however consideration must be given to roll weight and manageability.
- Provides surface stability to steep and aggressive applications, such as water courses, high wind exposure etc.
- Slows water run-off and provides excellent silt collection to water course embankments which aids natural vegetation and long term embankment regeneration.
- Simple to install and allows for planting through the mesh matrix.
- Provides shade and protection from the sun and drying effect of the winds to assist in the establishment of grasses and to reinforce the root system until it has reached full bio-mass.
