

Ecomerchant Coir Netting 700

100% Natural Coconut Fibre 100% Biodegradable fibre netting to ensure long term surface stability on steep problem areas, exposed sites and water courses.

Manufactured from 100% high quality bristle coir fibres, **Ecomerchant Coir Netting 700** erosion control netting is produced from spun coir twine and is available in 2.0m x 20m folded compressed rolls packed into bales of four. Can be supplied in individual rolls or full bales.

Ecomerchant Coir Netting 700 provides a strong and durable short to mid-term protection with an anticipated decomposition longevity of over 5 years. **Ecomerchant Coir Netting 700** is available in larger rolls if required, however consideration must be given to roll weight and manageability.

- Provides surface stability to steep and aggressive applications, such as water courses, high wind exposure etc.
- Slows water run-off and provides excellent silt collection to water course embankments which aids natural vegetation and long term embankment regeneration.
- Simple to install and allows for planting through the mesh matrix.
- Provides shade and protection from the sun and drying effect of the winds to assist in the establishment of grasses and to reinforce the root system until it has reached full bio-mass.

FABRIC TYPE	Flat fabric made of coir with hand twisted yarn
Material	100% Coir
Weight/Total (g/m ²)	~700
Presentation	Folded compressed rolls
Width	2 m
Length	25 m
Area	50 m ²
Weight/Roll	28 kg
Ends per 10 cm	4
Picks per 10 cm	5
Mesh Size	Approximately. 25 mm x 20 mm
Thread Tensile Strength-Warp	Approximately. 30 Kn/m
Extension	Approximately. 23%
Open Area	Approximately. 60%

The specification presented herein is to the best of our knowledge true and accurate. Ecomerchant cannot guarantee or offer warranty on products, unless agreed to in writing for specific conditions or for performance as the manner of handling, use and installation are beyond our control.

We cannot warrant our products to perform under unlimited circumstances due to variables such as soil conditions, manner of installation and particularly severe weather conditions. Satisfactory results may not meet your expectations. We will not be liable for damages or losses, direct or indirect, of our Ecomerchant Range of Products due to the above reasons. E&OE.
