

Ecomerchant Eco Peg

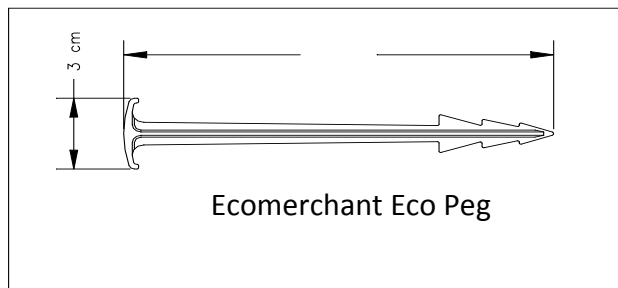

Multipurpose peg for garden and landscaping projects 100% recycled and recyclable material

The Ecomerchant Eco Peg is used to anchor erosion blanket, mulch mat, turf, protective covers, and netting. It does not need to be removed from the ground after use as it will completely biodegrade over time.

The Ecomerchant Eco Peg has barbs along its body to give it greater holding force and to prevent it being pushed out of the ground during ground-freezing conditions. It has a 3 cm head to hold fabric, netting or turf securely in place.

SPECIFICATION	
Sizes	10 cm (4"), 15 cm (6")
Material of Composition	Plant based material derived from wheat and potato + biodegradable pigments.
Applicable Standards	Ecomerchant Eco Pegs conform to EU Biodegradability Standards EN13432.
Biodegradation Process	The biodegradation process is brought about by micro-organisms in the ground which cause the complete breakdown of the Ecomerchant Eco Peg As microbial activity is affected by moisture and temperature breakdown can take longer in different regions.
Biodegradation Period	Maintain holding power in the ground for 18 months after which it will completely disappear.
Biodegradation By-Product	Carbon dioxide, water and humus (constituent of soil make-up) and no other by-products, all of which are already present in the environment.
Installation	Stake installation configurations and instructions as per blanket manufacturer specification.
Storage	Ecomerchant Eco Pegs store indefinitely until use without any loss of properties, biodegradation only commences once in the ground

The specification presented herein is to the best of our knowledge true and accurate. Ecomerchant cannot guarantee or offer warranty on products, unless agreed to in writing for specific conditions or for performance as the manner of handling, use and installation are beyond our control.

We cannot warrant our products to perform under unlimited circumstances due to variables such as soil conditions, manner of installation and particularly severe weather conditions. Satisfactory results may not meet your expectations. No one can guarantee that required moisture will occur to permit growth after seed germination. We will not be liable for damages or losses, direct or indirect, of or Ecomerchant Range of Products due to the above reasons.
